Yangon, Myanmar

Lin Phone Myint Zaw

Summary

Full-Stack Developer with expertise in backend development (Node.js, Express.js, PostgreSQL) and mobile/web applications (React Native, React.js, Next.js). Worked on backend architecture and project management for production of EdTech platform, managing sprints, coordinating team, and implementing CI/CD workflows. Interested in business logic design, technical documentation, and delivering scalable solutions.

Experience

EdTech Platform (Client: Technortal) – Backend / Technical Project Manager (Freelance)

October 2025 – Present

- Architected complete backend infrastructure using Node.js, Express.js, and PostgreSQL, implementing complex authentication and course management systems.
- Managed project lifecycle using Jira, including sprint planning, task assignment, and stakeholder presentations.
- Established CI/CD pipelines with automated testing and configured AWS S3 for secure storage.

HighGround – Junior Developer (Remote)

July 2025 – December 2025

- Developing cross-platform mobile applications using React Native Expo within an Agile environment.
- Implemented real-time features for a mobile streaming platform using web sockets.
- Translated customer requirements into technical documentation to clarify project scope.

NTT Data Myanmar – Junior System Engineer (Application Development)

April 2025 – June 2025

- Contributed to backend development for a major FinTech system renewal project.
- Executed requirement gathering and documentation within a structured enterprise environment.

Technical Skills

- **Frontend**: React Native Expo, React.js, Next.js
- **Backend**: Node.js, Express.js
- **Databases**: PostgreSQL, MongoDB, MySQL
- **Languages**: TypeScript, JavaScript, Python, Java
- **Tools & AI**: Docker, AWS S3, Git/GitHub, Jira, TensorFlow.js

---

Key Projects

PropertyApp – Property Investment Platform (React Native Expo)

Independent Project | Ongoing

- Built a cross-platform investment app featuring real-time P&L calculations, market simulations, and offline-first architecture.
- Implemented secure local authentication, multi-language support (En/My), and dynamic theming.

Minty – Personal Finance Management App (React Native Expo & Express.js)

Independent Project | Ongoing

- Developed a finance tracker with multi-account management and scalable JWT-based authentication.
- Created a responsive UI with offline/online synchronization and data persistence.

Intelligent Home Surveillance System (Next.js & TensorFlow.js)

Academic Project | Bsc (Hons)

- Developed an AI security system featuring real-time object detection and face recognition alerts.

Additional Academic Projects

Pharmacy Management System (MERN)

- Led an Agile team building a real-time inventory tracking web app.

Hotel Booking App (Flask/React)

- Developed a responsive booking platform with comprehensive admin dashboard.

P2P Rental Platform (Next.js)

- Built a scalable listing site with advanced filtering and Cloudinary integration.

Education

Bsc (Hons) in Computing | Edinburgh Napier University

August 2023 – March 2025

- Graduated with First-class Honours

Higher National Diploma in Software Engineering | Info Myanmar College

April 2022 – June 2023

- Graduated with Merits

Certifications

- IT Passport (ITPEC) | 2022
- Basic Linux Skills | 2019
- Network Engineering | 2018
- Intermediate English (Success Language Academy) | 2018
- CompTIA A+ | 2016

Languages

- Burmese (Native)
- English (CEFR B2 Level)
